PREPARING STUDENTS
FOR LIFE

Preparing Students for Life

Rothenberg Preparatory Academy, serving grades Preschool-6 in Cincinnati's Over-the-Rhine neighborhood, offers your child an incomparable education that will help them go far.

For the 2021-22 school year, we will be back and stronger than ever with in-person learning five days a week and established safety protocols. Your child will experience our neighborhood school's:

- Student Enterprise program that transforms K-6 students into budding entrepreneurs through hands-on, project-based learning experiences steeped in technology and enhanced by partnerships with Cincinnati businesses.
- Rooftop garden — the site of our science-enrichment program about agricultural gardening. We also offer free cooking classes for families using vegetables and fruit grown onsite.
- Adoption of the i-Ready ELA (English Language Arts) program that meets students where they are and supports their personal path to meet goals.
- After-school programming facilitated by the Imani Center, which provides homework help, activities and field trips for K-6 students.
